DIV. OF OIL, GAS & MINING

Mr. Todd Seiverling
Interpace Industries, Inc.
PO Box 12118
Ogden, UT 84412

Dear Mr. Seiverling:

The Bureau of Land Management (BLM) recently received your mining/reclamation plan for a proposed mineral materials sale located in Section 26, T. 8 S., R. 5 W., in Tooele County, Utah. You have provided most of the information required, however, your plan is considered to be incomplete. The BLM requests the following additional information:

Please create one detailed map on a topographic base that is accurate and detailed enough so that the following may be easily identifiable and locatable on the ground:

- 1) Existing surface topography
- 2) The location and dimensions of existing disturbed areas
- 3) The location and dimensions of proposed disturbed areas
- 4) Existing and proposed access routes
- 5) Location and volume of topsoil, waste rock, and material stockpiles and staging areas
- 6) Location of proposed processing facilities and equipment storage areas
- 7) Claim boundaries

The multiple maps you provided are not in the same scale, show conflicting information, and do not clearly identify the requested information. For example one of your maps simply shows an "x" for the mine location. Two of the maps show different pit outlines. Please clearly indicate the pit outline in relation to the total disturbed area or mining footprint on the detailed map you submit. Be sure to include the claim boundaries on the same map as well.

Please be aware that the BLM will only allow a small stockpile at the site during the 3-4 week mining period each year. At the end of every 3-4 week mining period each year you will be required to secure the site and re-contour the pit. This is in addition to the final reclamation that will be required at the conclusion of your contract(s).

0004

Please submit the requested information within 60 days of receipt of this letter. If we do not receive the requested information in that timeframe, we will close the subject case file. If you have any questions, or require additional information, please feel free to contact Stephen Allen of my staff at (801) 977-4360.

Sincerely,

/S/ MICHAEL G. NELSON

Michael G. Nelson
